Forecast for Sunday 31 Oct 2021

Weather: Heavy, occasionally squally, rain at first on Sunday. This clearing by mid-morning with brighter skies developing briefly along with scattered showers. Some showers could be heavy with risk of hail and thunder and likely to merge to longer spells of rain during the afternoon and evening.

Chance of cloud free mountain/hill tops above 600m: 10-20% at first becoming 60% by mid-morning.

Visibility: Moderate or poor in rain at first and occasionally in showers that follow, with nearby hills obscured, otherwise good beneath cloud. Low cloud extensive at first, cloud base mostly between 400-500m in early rain, becoming more broken from mid-morning with bases around 600 to 800m, but coming down to around 500m in heavier showers.

Meteorologist's View

Wet at first with ground saturated in places and some flooding likely, along with fast flowing river courses. Feeling chilly in the wind. Winds could be stronger and more gusty than shown in the table, especially in heavy rain at first and near showers.

Recent rainfall: measured at Neuadd: altitude 353m
